

November 5, 2020

Dear Splendido Residents,

We wanted to inform you that we learned late yesterday, November 4, 2020, that **an employee in Sonora has tested positive for the Coronavirus disease (COVID-19)**. The employee is recovering at home and following guidance from their physician. We wish them a speedy recovery.

We are awaiting the remainder of test results for residents and employees in Sonora, and **will continue to conduct routine testing for residents and employees in Sonora**. Splendido is interviewing this individual to determine if he/she was in close contact with residents and/or other employees (meaning within 6 feet of anyone for more than 15 minutes).

PROTECT YOURSELF AND OTHERS:

Each of us play an integral part in infection control. We ask that you continue to follow the steps below to protect everyone in our community:

- **Maintain physical distancing.** Keep at least 6 feet of space between yourself and others.
- **Adhere to face covering requirements.** Keeping your nose and mouth covered around the community and on the grounds.
- **Wash your hands often.** Use soap and water for at least 20 seconds, or an alcohol-based sanitizer.
- **Cover your cough or sneeze with a tissue.** Discard the tissue in the trash and wash your hands.
- **Stay home when you are sick.** Prevent spreading illness to others.

We're grateful for everything you are doing to keep everyone at Splendido safe. We're all in this together!

Questions? Please call (520) 878.2601 or email bewell@splendidotucson.com.

Please know that the health and well-being of residents and staff continue to be our top priority.

Take care and stay well.

Sincerely,

James C. Edwartoski
AVP & Executive Director

PS: Please note that this letter is being shared with all residents' current emergency contacts.

COVID-19 SYMPTOMS

If you are experiencing any of the following symptoms, you should contact your physician for guidance, stay in your home, and notify the Concierge at (520) 878.2600. Symptoms include a loss of taste or smell, cough, fever, sore throat, shortness of breath, and gastrointestinal issues such as diarrhea, nausea, or vomiting. Newer symptoms include headache, chills, and muscle pain. Please note that pink eye, eye pain, or vertigo, as well as discoloration of the toes may also be COVID-19 symptoms.
