

COVID-19 UPDATE

December 30, 2021

Dear Splendido Residents,

We know these are trying times, when each of us is juggling holiday plans while keeping an eye on the rise in COVID-19 cases. We want to keep everyone at Splendido as safe and healthy as possible during the current surge. Therefore, we're making a few temporary adjustments for the month of January.

IMPORTANT UPDATES EFFECTIVE MONDAY, JANUARY 3:

- Family and friends are welcome at Splendido, and **can visit with you in your home**. During January, our restaurants, fitness center, and all amenity spaces will be for residents only. You are welcome to order to-go meals for your guests and enjoy them in your home.
- **Food and beverages will be offered in the restaurants only**, aside from January Happy Hours that are for residents only, which will be offered in a larger, more distanced setting.
- **We'll continue to have in-person programming**. However, larger gatherings, such as the Resident Council and our monthly Update meeting, will occur virtually for now.

There have been some changes to guidelines regarding isolation time for people who have tested positive for COVID-19. Splendido continues to follow guidance from the Pima County Health Department (PCHD). PCHD has not adopted the new CDC guidelines, which lessen isolation time for positive cases. **In the event that you get a positive test result for COVID-19, it's best to contact the Concierge, who will notify management for guidelines on isolation.**

Finally, please note that the Centers for Disease Control (CDC) is **recommending that people wear well-fitted surgical masks vs cloth masks** for best protection against COVID-19. Please continue to practice good hand hygiene, keep a safe distance when in public, and avoid large gatherings.

Thank you for all you're doing to help us reduce risks of COVID-19 at Splendido. We're truly all in this together, and we appreciate your support.

Wishing you and your families a happy and healthy New Year.

Sincerely,

James C. Edwartoski
AVP & Executive Director

PS: Please note that this letter is being shared with all residents' current emergency contacts.
